

SHARK CITY

Dive Site:

- Shark City consists of sheer vertical walls, moderate slopes and canyons. The reef creates a corner with a plateau on the top
- This finger shaped reef is Palau's western most point

Marine Life:

- Gray Reef Sharks, schools of barracuda, snappers and Unicorn fish patrol the walls and corner
- Pyramid Butterfly fish, Square Anthias, Moorish Idols, Napoleon Wrasse, Spotted Eagle Rays and Yellowtail Fusiliers, large schools of silver Barracuda, big-eye Trevally and Black snappers
- Large patches of Lettuce corals & Staghorn can be found on top of the plateau & the canyons boast huge Gorgonian Fans
- Rare visitors include Bull sharks, Silver Tips & Hammerhead sharks
